

Sermon Series to Books

Do you have a powerful sermon or teaching series you know the Lord wants you to put into book form? We have good news for you!

We have this process down to a fine art. With our in-house transcriptionist, Uberwriters will take your sermon or teaching audio and convert it into the book's "raw material." We then assess and discuss your structure, target audience, "chapter" placement and overall intention for the book. Then we get to writing, and turn your messages into a professionally written,

Holy-Spirit inspired book in your own voice. Easily upload your audio or video files through

Dropbox, or any other cloud-based storage and we will give you a speedy

proposal on what it would take to get your book expertly written using your own

material, with the added benefit of our ghostwriters' combined years of

experience. Again, all Uberwriter's books are written to emulate our author's voice,"

while they are enhanced to be as engaging and structurally sound as possible, for

the author's target audience. We also include a FREE professional publisher/agent

proposal written to conform to what all the major publishing house's are

looking for. Uberwriters has written many successfully published books, and has

even received high praise from veteran Christian agents for their book

proposals. Â Contact us today Â to find out how we can help

you write that book God has placed on your heart in just a few months. Trust us, we'll make it easier and smoother than

you could ever imagine. Â
